ECOLOGY

ALL FORMS OF LIFE IN RELATION TO ENVIRONMENT

OFFICIAL PUBLICATION OF THE
ECOLOGICAL SOCIETY OF AMERICA

VOLUME 45, 1964

PUBLISHED QUARTERLY AT DURHAM, N. C.
BY THE
ECOLOGICAL SOCIETY OF AMERICA
AND THE
DUKE UNIVERSITY PRESS

The Ecological Society of America

OFFICERS FOR 1964

President, JOHN F. REED, Fort Lewis College, Durango, Colorado.

Vice-President, LAMONT C. COLE, Department of Zoology, Cornell University, Ithaca, New York.

Secretary, PAUL G. PEARSON, Department of Zoology, Rutgers University, New Brunswick, New Jersey.

Treasurer, RALPH W. KELTING, Department of Biological Science, Kansas State College, Pittsburg, Kansas.

AIMS

THE ECOLOGICAL SOCIETY OF AMERICA was founded in 1915 for the purpose of giving unity to the study of organisms in relation to environment, as a means of furthering intercourse between persons who are approaching widely different groups of organisms from closely related points of view, for the stimulation of ecological research, and to assist the development of the utilities which may be served by ecological principles.

MEMBERSHIP

Membership is open to persons who are interested in the advancement of ecology or its applications, and to those who are engaged in any aspect of the study of organisms in relation to environment.

The following classes of membership are recognized:

Associate Members, annual dues, $2.00.
Active Members, annual dues, $12.00.
Sustaining Members, annual dues, $18.00.

Active and Sustaining Members receive ECOLOGY for which not less than $8.50 of the dues are set aside. Six dollars of the dues of Sustaining Members are applied as the annual subscription to ECOLOGICAL MONOGRAPHS, the quarterly journal for longer articles. Members in arrears for dues will, on payment, be supplied with back numbers so far as they are available, but the journals do not hold themselves responsible for reserving back numbers in anticipation of the payment of back dues.

All members receive the BULLETIN OF THE ECOLOGICAL SOCIETY OF AMERICA, issued by the Secretary in March, June, October, and December. It contains announcements of meetings and excursions of the Society, abstracts of papers, programs, items of current interest to members, and occasional membership lists.

Associate Members do not receive ECOLOGY or ECOLOGICAL MONOGRAPHS and are not eligible for office, but may become members in any one of the above classes upon the payment of the appropriate dues.

Members of any class may obtain the journal ANIMAL BEHAVIOR at the special rate of $3.00 per year by sending a check to John A. King, Department of Zoology, Michigan State University, East Lansing, Michigan. Make the check payable to ANIMAL BEHAVIOR.

Application blanks for membership may be obtained from the Secretary, to whom all correspondence concerning membership should be addressed. Checks accompanying membership application should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

TABLE OF CONTENTS, VOLUME 45, 1964

SALISBURY, FRANK B. Soil formation and vegetation on hydrothermally altered rock material in Utah 1– 9

POTTER, LOREN D. AND DUANE L. GREEN. Ecology of ponderosa pine in western North Dakota 10– 23

HEUSSER, CALVIN J. Palynology of four bog sections from the western Olympic Peninsula, Washington 23– 40

GREENBERG, ARNOLD E. Plankton of the Sacramento River 40– 49

WIEGERT, RICHARD G. AND FRANCIS C. EVANS. Primary production and the disappearance of dead vegetation on an old field 49– 63

SCHUSTER, JOSEPH L. Root development of native plants under three grazing intensities ... 63– 70

CARPELAN, LARS H. Effects of salinity on algal distribution 70– 77

ALEXANDER, GORDON. Occurrence of grasshoppers as accidentals in the Rocky Mountains of northern Colorado 77– 86

BIDLINGMAYER, W. L. The effect of moonlight on the flight activity of mosquitoes 87– 94

HALL, DONALD J. An experimental approach to the dynamics of a natural population of *Daphnia galeata mendotae* 94–112

JOHN, KENNETH R. Survival of fish in intermittent streams of the Chiricahua Mountains, Arizona 112–119

MESSENGER, P. S. Use of life tables in a bioclimatic study of an experimental aphid-braconid wasp host parasite system 119–131

RICHARD, MILLER S. Larval competition in *Drosophila melanogaster* and *D. simulans* 132–148

KOZLOWSKI, T. T. AND C. H. WINGET. Diurnal and seasonal variation in radii of tree stems 149–155

MCDONOUGH, WALTER T. Germination responses of *Carnegiea gigantea* and *Lemaireocereus thurberi* 155–159

WEBB, L. J. An historical interpretation of the grass balds of the Bunya Mountains, South Queensland 159–162

BLISS, L. C. Leaf water content in two alpine plants on Mt. Washington, New Hampshire .. 163–165

BRAY, J. ROGER. Primary consumption in three forest canopies 165–167

WHITFORD, L. A. AND G. J. SCHUMACHER. Effect of a current on respiration and mineral uptake in *Spirogyra* and *Oedogonium* 168–170

DE VOS, A. AND F. W. ANDERKA. A transmitter-receiver unit for microclimatic data 171–172

DOWNEY, JOHN C. AND DAVID B. DUNN. Variation in the lycaenid butterfly *Plebejus icarioides* III. Additional data on food-plant specificity 172–178

DUMAS, PHILLIP C. Species-pair allopatry in the genera *Rana* and *Phrynosoma* 178–181

GUNTER, GORDON, J. Y. CHRISTMAS, AND R. KILLEBREW. Some relations of salinity to population distributions of motile estuarine organisms, with special reference to penaeid shrimp 181–185

HUHEEY, JAMES E. Studies of warning coloration and mimicry. IV. A mathematical model of model-mimic frequencies 185–188

LAUF, GEORGE H., AND KENNETH W. CUMMINS. A model stream for studies in lotic ecology 188–191

MARGOLIN, ABE S. A running response of *Acmaea* to seastars 191–193

MARSHALL, NELSON, AND STANLEY RUBINSKY. A microstratification water sampler 193–195

MINCKLEY, W. L. Upstream movements of *Gammarus* (Amphipode) in Doe Run, Meade County, Kentucky 195–197

SREENIVASAN, A. Fish mortality in an upland lake in Madras State 197–198

WAGG, J. W. BRUCE. Design of small mammal exclosures for forest-seeding studies 199–200

GOLLEY, FRANK B., AND JOHN B. GENTRY. Bioenergetics of the southern harvester ant, *Pogonomyrmex badius* 217–225
HALL, CLARENCE A., JR. Shallow-water marine climates and molluscan provinces 226–234
HORVATH, OTTO. Seasonal differences in rufous hummingbird nest height and their relation to nest climate 235–241
JOHNSON, DONALD R. Effects of range treatment with 2,4-D on food habits of rodents 241–249
MCCULLOUGH, DALE R. Relationship of weather to migratory movements of black-tailed deer 249-256
MILLER, RICHARD S. Ecology and distribution of pocket gophers (Geomyidae) in Colorado 283–291
PEQUEGNAT, WILLIS E. The epifauna of a California siltstone reef 272–283
STICKNEY, ALDEN P. Salinity, temperature, and food requirements of soft-shell clam larvae in laboratory culture 283-291
BURBANCK, MADELINE P., AND ROBERT B. PLATT. Granite outcrop communities of the Piedmont Plateau in Georgia 292–306
CUSHING, COLBERT E., JR. Plankton and water chemistry in the Montreal River lake-stream system, Saskatchewan 306–313
MCINTOSH, R. P. AND R. T. HURLEY. The spruce-fir forests of the Catskill Mountains 314–326
CROCKETT, JERRY J. Influence of soils and parent materials on grasslands of the Wichita Mountains Wildlife Refuge, Oklahoma 326–335
BUCK, PAUL. Relationships of the woody vegetation of the Wichita Mountains Wildlife Refuge to geological formations and soil types 336–344
DRISCOLL, RICHARD S. A relict area in the central Oregon juniper zone 345–353
PATRIC, JAMES H. AND TED L. HANES. Chaparral succession in a San Gabriel Mountain area of California 353–360
ARMSTRONG, JOSEPH T. The population dynamics of the planarian, *Dugesia tigrina* 361–365
BRIAND, L. J. A permanent pond for studies of mosquitoes and other aquatic insects 365–367
CLARK, PHILLIP J., PHILLIP T. ECKSTROM AND LARRY C. LINDEN. On the number of individuals per occupation in a human society 367–372
HAIRSTON, NELSON G. AND SARA L. KELLERMANN. Paramecium ecology: electromigration for field samples and observations on density 373–376
HUBBS, CLARK. Effect of thermal fluctuations on the relative survival of greenthroat darter young from stenothermal and eurythermal waters 376–379
MAIN, A. R. AND P. J. BENTLEY. Water relations of Australian burrowing frogs and tree frogs 379–382
